### THE VISITORS BEGAN WELL

They Hada System for Getzein's Pitching and Apparently Made Runs at Will.

Staley Held the Hoosiers Down and the Score Got Far Beyond Them-Philadelphia, Chicago and Boston Winners-Other Games.

The Pittsburgs outplayed the home team at every point in the opening game of the first series at the League Park, yesterday afternoon, and won a victory with comparative ease. Staley, who was in the box for the visitors, was very effective, while Getzein was hit freely and just at the right time. Errors by Denny and Bassett also helped things along, and altogether the contest was one that had but little interest for the 1,000 spectatory. The only features of the game were the batting of Carroll, Dunlap and Seera, McGeachy's brilliant assist from right field, cutting off a runner at third base. Jounlap's work at second and Buckley's catching. The Hoosiers were retired in order in the first inning. In the second Scheneck's fine three-base drive and a si'agle by Hines scored the first run. Serry made a hit in the third, but was left. The next two innings were blanks, but in the sixth Seery led off with a double, went to third on Glasscock's fly to Hanlon, After Schoneck had been retired in the eighth, Getzein made a single and scored on Secry's second line hit to center field for two bases, the latter crossing the plate on Glasscock's single. The next two batters were retired and the captain was left; Hines secured a double in the last inning, but failed to score, owing to the inability of Bassett and Scheneck to place the ball, Buckley having previously gone out on a grounder to Beckley.

The visitors started the ball rolling in the first maning and kept it going rather lively throughout the game. Hanlon was retired by Bassett and Schæneck, Carroll made a single, and Beckley reached first on Glasseock's failure to hold his line drive. With a two-base hit, and both men scored. Maul was given his base on balls, but was put out trying to steal second. Kuehne singled in the third, and Denny's fumble let smith to first. Miller was retired by Denny and Schæneek, and Glasscock threw Hanton out, but Carroll sent both runners some with a hit past second. The next two innings resulted in blanks, but Hanton's base on balls and Carroll's homerke hit over left-field fence earned two tal-les in the fifth. In the next the visitors were retired in order.

The seventh was very disastrous for the Hessiers, four runs, two earned, being posted up when the side was finally put out. Miller led off with a nice single, and went to second when Bassett fumbled Hanlon's grounder. Carroll struck out, but Beckley, Dunlap and Staley followed with singles, and three more men scored. Maul fouled out to Buckley and Kuehne flew out to Hines. A single by Hanlon, a home-run hit by Carroll, a single by Beckley and a double by Dunlap netted three runs in the eighth. As the Hoesiers had failed to tie the game, the visitors did not play their half of the minth, and the score remained as follows:

BOSTON, 9; WASHINGTON, 6. WASHINGTON, May 3.—The Boston team outplayed the Washingtons at all points to-day, and won an easy victory. For four innings it was nip and tuck, but in the fifth Boston began to hit the ball, and the Senators assisted them in their play very materially by making three bad errors, the result of the inning being six runs, not one of which was earned. Ball-Player on a Strike by Himself. St. Louis, May 3.—The St. Louis Browns played in Kansas City to-day without the services of Robinson, their second baseman. He went on a strike last night, and refused to accompany the club to Kansas City. Nearly every member of the club was with Robinson, but they finally went to Kansas City, though on different trains.
The second baseman's grievance is a fine of \$25, imposed upon him by President Von Der Ahe for abusing one of the gate-keepers who refused to admit a boy bearing a pair of base-ball breeches for Robinson. The famous second baseman is firm, and says he will play ball no more unless the fine is remitted.

Base-Ball Notes.

Glasscock's error was made in an attempt to stop a hot liner. Scheneck seems to be hitting the ball as hard and as often as any man in the team. Lynch was not always right in his judgment on balls and strikes, but otherwise

Glasscock will have a new supply of bats to-day, and the opposing pitcher will prob-ably realize that fact.

Manager Bancroft says no further effort will be made to secure Andrews. It is probable that Sullivan will be placed in center

Out of the last nine times at bat Seery has made six hits, two of them being two-baggers and one a triple. That is not bad or a sick man.

The second game between the Indianapolis and Pittsburg teams will be played this afternoon. Whitney and Rusie will be on the card for the home club and either Galvin or Conway will pitch for the visitors. Chicago Herald: Indianapelis is still a famous old town. The glory that disappeared with the Harrisons has been more than restored to it by Anson's home run. Curious visitors are already carrying away pieces of the ball park fence for relics.

J. P. Suttie, Knightstown: A runner cannot score or advance a base on a foul fly unless he first touches the base after the ball has been caught. Returning the ball to second base has nothing to do with the case. In case of a foul grounder, the runner must return and touch the base after the pitcher has the ball and is in the box. He can do so, however, without be-

ing put out. Racing at Nashville.

NASHVILLE, Tenn., May 3.-The second day's racing at West Side Park was witnessed by about 8,000 people. The track was fast, and the weather was very windy but pleasant. The sport was fine, although the contestants were not of as high a class as those of the first day.

First Race—Selling; for three-year-olds and upwards; seven and one-half furlongs. Fred Taral led at the start, Clara C., second and J. T. third. At the three-quarters J. Clara C. led all the way down the stretch, and won easily, without whip or spur. by a half length from J. T., second, and Fred Taral third. Time, 1:381-4.

Second Race—For three-year-olds and upwards; six furlongs. Thankful was the first away, Dulme second, and Fred Wooley third. At the half Buckler was leading, and the others close up, with the exception of Thankful, who was seven lengths behind them all, apparently already done for, but

Britton, gauger, upon orders from Washington, based on charges that he has demanded money from distillers, has caused manded money from distillers, has caused much excitement among internal revenue officers and whisky men. A special agent has been sent here, upon the complaint of W. W. Johnson, distiller, that gauger Goetz had demanded \$75 a month from him. The distillers say it has been a common thing for them to pay gaugers certain sums monthly. Collector Bishe says it is an old custom, and had its origin in the commercial gauging, which used to be necessary, but which is not now, owing to the adoption of the government standard by the Chamber of Commerce. Commissioner Mason says that Britton was removed for extorting money from the distillers. His case was so flagrant that he was summarily dismissed. Mr. Mason also says that gaugers are paid at the rate of \$5 a day, and are allowed to do outside work for distillers, but are not expected to demand unreasonable pay for their services.

Testing a Dakota Law.

HURON, Dak., May 3.—Mandamus proceedings have been instituted against the Board of County Commissioners by E. M.
Thomas to show cause why he should not
be appointed auditor for Beadle county. Mr.
Thomas is an honorably discharged Union
soldier, and fully competent to discharge
the duties of the office. He and Charles O.
Morgan were the only applicants for the
position, and both have served in the office
of the treasurer and register of deeds. Mr. position, and both have served in the office of the treasurer and register of deeds. Mr. Thomas claims the appointment under the provision of Sections 2474 and 2475 of the political code of Dakota. These sections provide that where an ex-Union soldier makes application for appointment to territorial, city, town or village office he shall, all things being equal, be preferred as against one who has not served in the Union army. The G. A. R. men saw a fine Union army. The G. A. R. men saw a fine opportunity to test the law in this instance and, therefore, induced Mr. Thomas to begin proceedings. The case is attracting much attention, and on its decision depend many more of a similar character.

Chicago Doesn't Want the Gamblers. CHICAGO, May 3.—Chief of Police Hub-bard to-day issued an order to the captains of police in which he says: "It is currently reported that gamblers are flocking to this city from all parts of the country, intend-ing to engage in their unlawful calling, or profit from a loese interpretation of the laws and ordinances governing such matters. Public gambling will not be tolerated within the limits of this city, and any impression to the contrary which may exist should be at once corrected. A strict enforcement of the vagrancy laws directed against this class of people will rid the city of their presence, and the force is hereby of their presence, and the force is hereby directed to take notice of all such persons arriving in the city, and those already here, and if they persist in remaining, and neglect to engage in legitimate business, they should be prosecuted according to law." Mayor Cregier says this order was issued after consultation with him, and that gamblers will not be permitted to stay in the city. It had been stated in some of the newspapers of the city that gambling was to be treated leniently.

Advance in Short-Distance Telegraph Tolls. NEW YORK, May 3.—By orders issued by the Western Union and Postal Telegraph companies, long-distance rates at many points have been reduced, while for short distances the rates have been advanced slightly. The most important part of the slightly. The most important part of the new orders is, however, the elimination of the Mutual Union Telegraph from the field, all the Mutual Union offices being closed or turned into Western Union offices. It was thought that this new movement indicated a closer alliance between the Postal Telegraph Company and the Western Union, but the officials of the Postal company state that the company does not lose its state that the company does not lose its independence under the new arrangement. It has no interest in the Western Union, and the Western Union has no interest in
